

Once your purchase is complete you will receive your registration via email. It will contain a user name and password. These form your registration code. Following these steps you can register your shareware version of Liberty BASIC:

- 1) Start your copy of Liberty
- 2) Click on the "Setup" menu option (Pic #1)
- 3) Click on "Enter Registration Code" under the "Setup" menu (Pic #1)

## Picture #1:

After you click on the "Enter Registration Code" you will be shown a screen (Pic #2) where you can enter the information that was contained in the email you received from Carl.

## Picture #2:

You will notice on this form that there are two areas to enter your name and password. The top area, enclosed with a frame, is used to enter your old user name and password if you are upgrading from a previous version. If you are a NEW user and entering this information for the very first time then you need to use the second set of boxes.

- 4) Enter the information from the email into the appropriate boxes
- 5) Click "Ok"

If all goes well you should be all registered and ready to use and enjoy your fully-registered copy of Liberty BASIC.
