

# Jack-O-Lantern Extreme Challenge

## Extreme Jack-o'-lantern Challenge

A Jack-o'-lantern is a pumpkin that's been hollowed and had a face carved into it. A candle is often placed inside to create an eerie glow.

Here is a description on Wikipedia:

<http://en.wikipedia.org/wiki/Jack-o%27-lantern>

The challenge rules are as follows.

## Guidelines

- Challenge begins October 15, 2009.
- Challenge ends October 20th.
- The forum membership will be asked to vote for a favorite entry.
- The winner's name will be listed on the community wiki [Winner's Hall of Fame](#).
- Create a Jack-o'-lantern image.
- The program must be done with all native Liberty BASIC commands.
- No external bitmaps or other external files may be used.
- The image can be a single, static image, or it can include multiple images or moving images.
- User interaction is not required, but may be included.
- Please do not use gruesome images or anything in bad taste or that is not suitable for viewing by children.

## Submissions

Since no external files (dll's, bmp's, etc.) are allowed, simply place your code on a new page. Create a link to the page by placing the name between double squared brackets like this: [[Your Entry Name]] After you've saved the editing of this page, click the link and go to your new page to edit it. Paste your code and save your edits.

### List your entry below:
